

To Our Valued Customers :

For some time now, QSA's owner, Collier Capital, has been considering various divestment opportunities as part of its normal portfolio management.

We are pleased to announce that these divestment initiatives have reached fruition and that on July 24, 2008, QSA Global, Inc. was acquired by Illinois Tool Works, Inc. (NYSE: ITW).

ITW is a diversified manufacturing company with nearly 100 years of history delivering specialized expertise, innovative thinking and value-added products to meet critical customer needs in a variety of industries. ITW has more than 825 decentralized business units in 52 countries that employ approximately 60,000 men and women. QSA will join ITW's Test and Measurement Group.

QSA's management team is delighted to be part of the ITW family and looks forward to the continued expansion of the services we offer to our customers working from the broad base that a company such as ITW offers.

From our customer's point of view, none of the day to day contact points within QSA will change. All licensing or regulatory notifications and approvals required by this transaction have been completed and obtained, and QSA will continue to trade under its current name. As a result, our relationship with all of our customers will remain unaffected by this change of ownership.

If you have any further questions, please feel free to contact us.

Very Truly Yours,

Larry Swift, President
